

LabelsAnywhere Desktop **Version 3.0 now fully conforms with **Windows 7®** installations!**

Colorflex would like to announce Version 3.0 of LabelsAnywhere Desktop. This new version is now fully compatible with Windows 2000®, Windows XP®, Windows Vista® **and now Windows 7®** installations.

In keeping with Colorflex's reputation for software innovation and development of world class solutions, this new release has been fully tested and will present your end user with a flawless installation experience on any of these four operating platforms.

Windows 7® is quickly gaining market share as a result of pent up demand for new computers. Be at the ready when your clients start looking for compatible software solutions.

Contact your Customer Service Representative now for Complete Details on this New Release.
