

HP TRIM AddIn...

The Colorflex HP TRIM™ AddIn offers a quick and convenient method for printing a variety of Record and Filing Labels using existing TRIM data.

Print directly from
TRIM™ with the
Colorflex AddIn

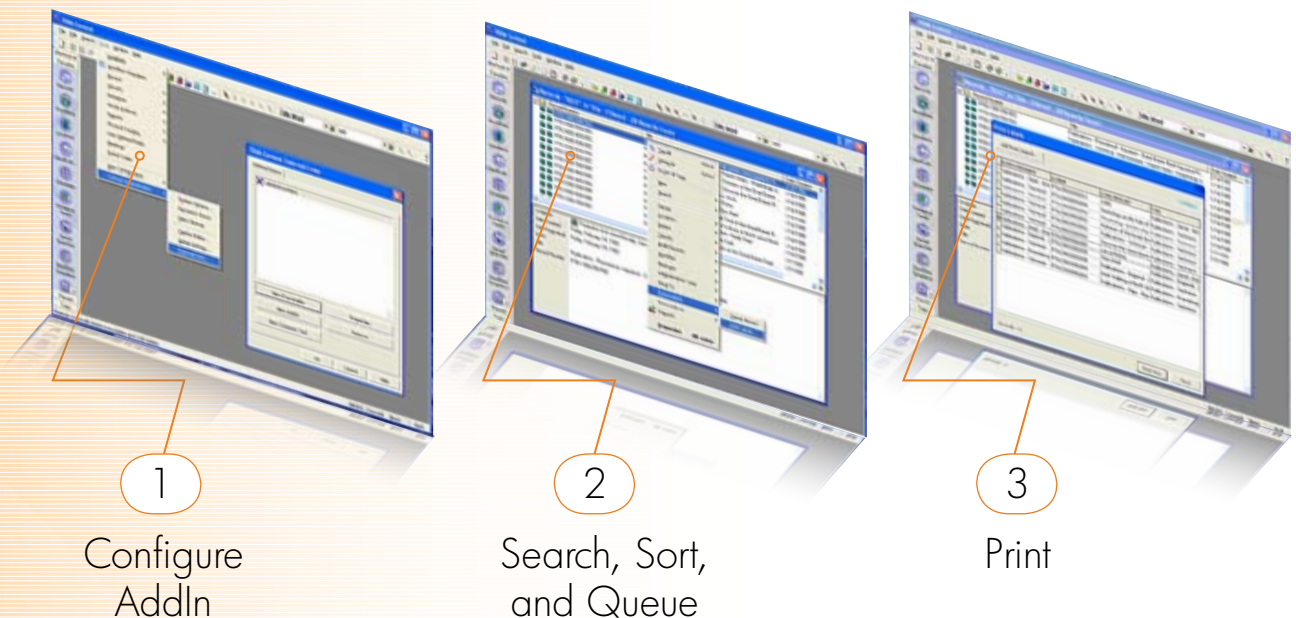

PRINT ON DEMAND with a background link to the time tested power of the Colorflex Standalone and Web-based labeling software.

AddIn Features

- Easy setup and configuration with custom data mapping features
- No need to enter data again - simply locate the record and print a custom label on demand
- Robust search tools allow for selection of exactly the records you need
- Queue individual records, one at a time or select multiple records using familiar search tools
- Powerful sorting and filtering options allow you to further refine your record selection
- Queue records now and print later

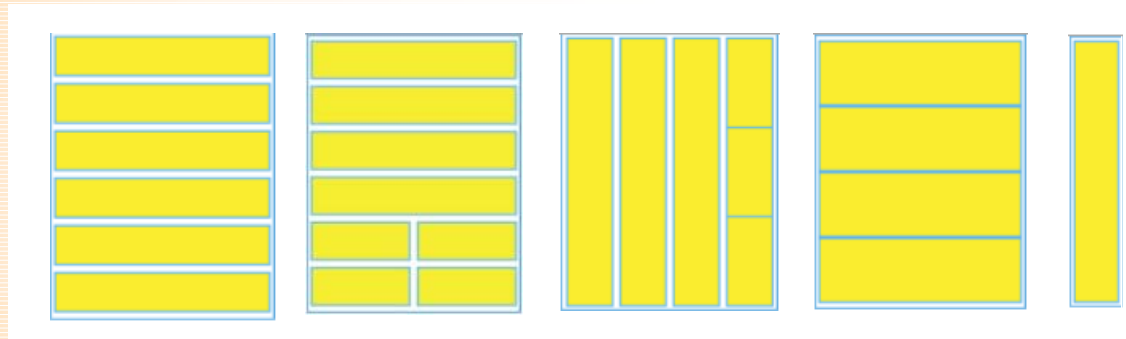

Easy Steps to Printing

TURNKEY DEMAND PRINT SYSTEM

(from Colorflex includes)

- AddIn Software
- Label (Facestock)
- Label Design

Demand print NOW from HP TRIM™ using formatted Colorflex facestock and Colorflex design assistance. (Additional stock and custom formats available)

Print complex label layouts based on record type using sophisticated label designs (text, graphics and barcodes)
